The records you have requested are not maintained in a database, and cannot be queried. This estimate is based on manually going through **103,863** records, taking an average 15 minutes to go through each case file to determine if there is a record responsive to your request, and if so, redact any information exempt from disclosure. Because ISP does not have staff available to fulfil this request, it would be necessary to contract out the work at approximately \$17.53/hr. This cost will increase if you choose to receive hardcopies of any responsive documents.

*This is an estimation of costs. If the actual cost is less than the estimate you will be reimbursed. If the actual cost is more than the estimate you will be assessed those costs before the documents are released. Please include a copy of this invoice with your payment.*
